The chart displays the monthly death toll from COVID-19 in the United States from 2008 to 2017. The x-axis represents time in months, with labels every four months (Month 1, Month 5, Month 9, Month 13, Month 17, Month 21, Month 25, Month 29, Month 33, Month 37, Month 41). The y-axis represents the number of deaths, with labels at 0, 20, 40, 60, 80, and 100. A legend in the top-left corner identifies the lines for each year: 2008 (red), 2010 (orange), 2011 (light green), 2012 (green), 2014 (cyan), 2015 (blue), 2016 (purple), and 2017 (pink). The 2008 line shows a sharp peak of nearly 100 deaths in early 2020, followed by a decline and then a steady rise back towards 100 by the end of the period. The other years show much lower and more stable death tolls, generally below 20 deaths per month.

Month	2008	2010	2011	2012	2014	2015	2016	2017
Month 1	10	15	10	10	10	10	10	10
Month 5	10	15	10	10	10	10	10	10
Month 9	10	15	10	10	10	10	10	10
Month 13	10	15	10	10	10	10	10	10
Month 17	10	15	10	10	10	10	10	10
Month 21	10	15	10	10	10	10	10	10
Month 25	10	15	10	10	10	10	10	10
Month 29	10	15	10	10	10	10	10	10
Month 33	10	15	10	10	10	10	10	10
Month 37	10	15	10	10	10	10	10	10
Month 41	10	15	10	10	10	10	10	10
